Loïs KOUNINEF

Web Developer

After about fifteen years working in hotel and catering, I developed a true passion about programming in general and web development in particular. I have an appetite for Clean Code principles and best practices, and I care about producing good code, readable and maintainable.

Relevant Experiences

○ **Online book club** *Work in progress*

NestJS, Angular, PostgreSQL

Test-Driven Development ;
Clean Code and Clean Architecture principles application approach ;
Scrapping to get covers of user's registered books ;
Books suggestion according to books liked, created and commented.

○ **Online ordering fresh produce from the producer**

NestJS, Angular, PostgreSQL

Relational database structure design ;
API documentation with Swagger ;
Using guards & custom decorators for routes protection ;
Authentication with cookie (passport-session) ;
Using handlebars to send dynamic emails.

○ **Browser games sharing platform** *School project*

Ruby On Rails, React, PostgreSQL

API key generation to link a game to the app and allow scores upload ;
Authentication with JWT ;
Carrousel with recent registered games' images ;
Using modal windows, multiple themes available (appearance).

○ **Sports newspaper website** *School project*

Ruby On Rails, PostgreSQL

Relational database structure design (normalisation) ;
Polymorphic relations for comments, nested comments ;
Authentication with Devise, three subscription packages with Stripe API ;
Using CRON jobs for a weekly newsletter.

○ **Portfolio**

VueJs

French and english content, CSS / JS animations, light and dark theme ;
Responsive design, Base64 image encoding ;
PDF integration (resume), deployment script.
